Cotton is now a cent and a quarter higher than it was one year ago, and the indications are that it will go higher. If the receipts all off during the next month there will be a big jump in price, but as cotton is opening more rapidly than ever before and is rushed to market the receipts will be so heavy, that the fact that there is a short crop will not be believed until the farmers have sold their cotton, and the advance in price will come too late to benefit them.

## Mr. W. P. Friar Chief Dispatcher.

Mr. W. P. Friar has received his appointment as chief dispatcher of the Florence office, vice C. L. Porter, recently appointed a trainmaster. Mr. Friar was formerly on the second track, and although his promotion was expected the orders were unavoidably delayed. Mr. Friar is a young man of sterling qualities, and the news of his promotion will be received with general satisfaction. His position is now a very responsible one, the Florence office being one involving the handling of from seventy-five to one hundred trains a day. Through his strict attention to business, and his efficiency as a train dispatcher, Mr. Friar won the confidence of his employers and his rise was inevitable.

Mr. R. B. Hare will also move up one step, succeeding Mr. Friar on the second track while Mr. R. J. Saverance will hereafter work the third track. These are all positions of great responsibility, but judging from the past work of these young men, they will be filled with perfect efficiency.—Florence Times.

## "YOM KIPPUR."

With the setting of the sun today begins the Jewish holiday, known as the Day of Atonement called "Yom Kippur."

The Israelites will commence the religious exercises appropriate to Yom Kippur by a solemn fast at sundown and the various services will not terminate until the sun shall have set tomorrow afternoon.

And, as in this city, so throughout the Jewish world, millions of voices will be raised to proclaim the unity of God, and in fasting and prayer will entreat the Giver of all good to look on them with an eye of mercy, to pardon their errors, forgive their sins, and inscribe them in the book of life and happiness.

It is remarkable, and speaks well for the faithfulness of Israel, that although upwards of centuries have elapsed since the day was appointed for its observance, yet to this hour it is solemnized with the same vigor as on the day the command was given.

"For on this day there shall be made an atonement for you to cleanse you from all your sins." These words will be uttered by all who bear the name of "Jew," by all who, though estranged from the fold by circumstance or inclination, return within the pale of Judaism and sit among their brethren, in lowly humility on the Day of Kippur, the solemn day of atonement, the day of repentance.

These words will be repeated with passionate accents, with prayerful longing, that the realization of the promise contained in them may be vouchsafed.

On the Yom Kippur day, the Israelite goes through all the changes ranging from a consciousness of quiet to expiation and final atonement.

## THE COTTON MARKET.

Daily Item, Sept. 7.

The Sumter cotton market is getting a move on it and the competition between buyers is so keen that cotton is bringing as much here as it is quoted at in New York. This morning the market opened with good middling at 6 1/2 and the market was strong and steady all day. For strict good middling 6 3/4 was paid readily and the prices for lower grades were correspondingly strong. Sumter is the best cotton market in this section of the State and the six or eight strongest cotton exporting firms doing business in the southeastern states have representatives here, all of whom want all the cotton to be had and they are paying the top of the market. The building of the Sumter & Wateree R. R. was one of the best things for Sumter that ever happened and the effect on the cotton market is plainly seen already.

A negro boy about 12 or 14 years old was seriously injured at the depot last Saturday just as he got off the train. Another negro boy, name not ascertained, threw a rock which struck the first mentioned boy on the forehead, just above one eye. A gash more than two inches long was laid open to the bone. The wounded boy was brought up to town and was given the attention that he needed.

## THE SUMMER SCHOOL EXAMINATION.

A Statement by County Superintendent of Education Rembert.

At the conclusion of the Summer School for Teachers County Superintendent of Education Rembert was requested to furnish a list of the teachers who had successfully passed the examination. He stated that he did not care to have the list published in view of the fact that many of the teachers did not attend the school at all, that a number were present only a part of the time the school was in session, and did not take the examination. Since then the list has been published, the information being given out by another party and to set the matter right Mr. Rembert furnishes the following statement:

The following teachers passed in all the branches at the Teacher's Institute examination: Miss Virginia Anderson, Mrs. Bessie Brunson, Miss S. G. Ellis, Miss Agnes Richardson, Miss Fannie Sauter, Mr. B. D. Wilson.

While a dozen or more passed in nearly all the branches, there was a number of excellent teachers who attended only part of the time, therefore did not stand the examination, and many were unable to attend the institute at all.

For wounds, burns, scalds, sores, skin diseases and all irritating eruptions, nothing so soothing and healing as DeWitt's Witch Hazel Salve. Mrs. Emma Bolles, Matron Englewood Nursery, Chicago, says of it: "When all else fails in healing our babies, it will cure."—Hughson-Ligon Co.

## High Prices For Tobacco.

The Tobacco Warehouse is doing a rushing business now, sales are held every day and frequently twice a day when any quantity of tobacco comes in in the afternoon after the regular sale is over. Last Wednesday there were among the lot several loads of fine tobacco and the prices were correspondingly high. One farmer received 25 cents a pound for some of his tobacco and the average price for his load was 1 1/2 cents. The prices ruled high throughout the sale and all of the sellers were satisfied. There was not as much tobacco on the floor today and the grades were not as good, but the prices were high and will compare favorably with the prices at any other warehouse in the tobacco belt.

## A Virginia Mother

says she used five bottles of Mother's Friend, beginning six months before confinement. She felt perfectly well up to a few hours before the baby was born, and was in labor less than two hours. She had no morning sickness, no headache, no distressing tightness, no swollen or rising breasts. Her baby was strong and the picture of health.

Mother's Friend is the only remedy known which relieves the expectant mothers. It is a liniment to be applied externally. Nothing but harm can come from taking medicine internally at such times. All internal preparations said to relieve coming mothers are not only humbugs, but positively dangerous.

Mother's Friend costs \$1 a bottle at druggists, or you can send to The Bradford Regulator Co., Atlanta, Ga.
